

## **Dyson DC35 Digital Slim Multi Floor Vacuum Cleaner**

Dyson DC35 Multi Floor is a Dyson Digital Slim cordless vacuum cleaner for every floor type. It features a detachable long-reach wand and a motorized cleaner head. Powered by the Dyson digital motor, the most power-efficient motor ever developed for a cordless vacuum, the DC35 is the most powerful cordless vacuum cleaner.

The Dyson Digital Slim features Root Cyclone™ technology, in which powerful centrifugal forces spin dust and dirt out of the air and into the bin, with no loss of suction. This cordless vacuum is powered by the Dyson digital motor, which operates up to three times faster than conventional motors.

Dyson DC35 features a conductive carbon fiber brush bar. This brush bar contains rows of ultra-fine carbon fiber filaments engineered to remove fine dust from hard floors, as well as stiff bristles designed for intensive cleaning on rugs and carpets. The velour bumper on the front of the floor tool protects furniture and walls from bumps and bruises, and an independent motor in the cleaner head spins the brush bar 1,500 times a minute for maximum pickup.

DC35 has a 22.2 volt lithium-ion battery that doesn't fade during use, so power stays strong as you clean. Additionally, this lithium-ion battery recharges up to three times faster than others. Dual power mode allows for 15 minutes of high constant suction for regular cleaning, (13 minutes with the motorized floor tool attachment), or 6 minutes on MAX power for more difficult cleaning tasks.

The Dyson DC35 has a detachable long-reach wand made of lightweight aluminium, allowing the user to reach up high, down low and into awkward spaces for all around cleaning capability. The clear bin allows you to see when it's full, and is easily emptied with the push of a button minimizing contact with dirt and allergens.

The Dyson DC 35 cordless vacuum includes a combination accessory tool which converts to a brush tool for dusting, and a crevice tool for cleaning tight and narrow spaces. The included docking station can be used for recharging and storing the machine and attachments when not in use. DC35 comes with a 2 year parts and labor warranty, and as with all Dyson vacuums has no bag and no loss of suction.

### **Description:**

#### **Root Cyclone™ technology**

Powerful centrifugal forces spin dust and dirt out of the air and into the bin with no loss of suction.

#### **Dyson digital motor**

The fastest, most power-efficient motor ever developed for a cordless vacuum cleaner. Up to three times faster than conventional motors.

#### **Motorized floor tool with carbon fiber brush**

Stiff nylon bristles spin up to 1,500 rpm to remove ground-in dirt from carpets. Velour bumper on the front of the floor tool protects furniture and walls from bumps and bruises.

**Fade free 22.2V lithium-ion battery**

Doesn't fade during use, so power stays strong as you clean. Recharges up to three times faster than others.

**Dual power mode**

15 minutes of high constant suction for regular cleaning, (13 minutes with the motorized floor tool attachment), or 6 minutes on MAX power for more difficult tasks.

**Detachable long-reach wand**

Lightweight aluminium wand reaches up high, down low and into awkward gaps for cleaning hard-to-reach areas conveniently.

**Cleaner head pivots for easier steering**

Articulates 180° without losing contact with the floor. No more awkward movements to steer around furniture and obstacles.

**Hygienic bin emptying**

Just push the button to release the dirt. The clear bin lets you see when it needs emptying.

**Tough construction**

Made from the strongest materials available, to withstand daily bumps and bashes.

**Constant floor contact**

Cleaner head stays flat to the floor when pulling back and when the machine is fully reclined.

**Docking Station**

Recharges and stores the machine and attachments when not in use

**Stair cleaning**

Motorized brush bar can be attached directly to machine for cleaning stairs

**2 year warranty**

Parts and labor

**Included with this model**

**Motorized brush bar**

Rotating nylon brushes remove ground in dirt from carpet, while ultra-fine conductive carbon fiber brushes clean hard floors

**Combination accessory tool**

Nozzle converts to a brush tool for dusting

**Crevice tool**

For cleaning in tight gaps and narrow spaces
