HOW IT WORKS: *The Healthy Home WC-SF Elite system provides quality drinking water to the home and protection from scale formation throughout the plumbing system. The Healthy Home WC-SF Elite can be installed at the point of entry to treat your entire home, for both hot and cold water.*

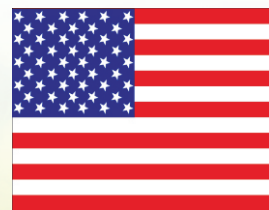

The Healthy Home WC-SF Elite prevents scale by transforming the normal dissolved hardness minerals into undissolved crystal micro-particles. These crystals stay suspended in the water and have a greatly reduced ability to react and attach to surfaces like dissolved hardness does. Therefore, the problem of internal buildup of scale in pipes, water heaters, and spotting on fixtures, silverware and glass is greatly reduced.

Low or phosphate free cleaning products are recommended to achieve optimum results. Modern surfactant or detergent based liquid soaps are preferred over previously produced caustic solid soaps.

Get Delicious, Sparkling Clear Drinking Water Throughout the Whole House

- Clear, Great Tasting Water
- Pristine Clean Rinses for Fruits and Veggies
- Quality Water for Your Coffee and Tea
- Great for Your Pets and Aquariums

Designed, Tested,
and Assembled
in the USA

Economic and Green Benefits

- Pennies-A-Gallon for Great Tasting, Clean Water vs. Dollars-A-Gallon for Bottled Water
- 2.5 Million Water Bottles are Disposed of Every Hour in the U.S. and Only 1 in 6 are Recycled. No Bottles & No Waste!

Convenience

- Fresh, Clean Water Ready at Your Tap
- No Deliveries to Schedule
- No Trips to the Store
